Subject: Coming in the Federal Register: Solicitation of Nominations for Stormwater Finance Advisory Board

Greetings- You may be aware that Congress directed EPA to convene a stormwater funding advisory committee through the *America's Water Infrastructure Act of 2018*. I heard yesterday that this week or early next, the *Request for Nominations of Expert Consultants to the Environmental Financial Advisory Board on Stormwater Funding and Financing* will be published in the Federal Register (FR). This FRN responding to Congress' call to establish a stormwater task force under the America's Water Infrastructure Act of 2018. There has already been significant interest in the task force from Congressional representatives, national water sector associations, and private individuals. I thought the makeup and work of this Board might be of interest to you stormwater mavens, and I thought you might be a good person (or know good people) to participate who can represent well on the full range of funding/finance related needs in the stormwater arena. I am not directly involved in the development of this Advisory Board, but would be happy to discuss if you like.
Best

David Smith
